## **Bainbridge Island Metropolitan Park & Recreation District**

## CONFINED SPACE SAFETY PROGRAM CERTIFICATE OF TEMPORARY RECLASSIFICATION SPACE 201) RESTROOM NEAR KIDS UPS PLAY AREA (WATER CIRCULATION CLOSET)

A permit-required space can be temporarily reclassified as a non-permit required confined space when hazards have been eliminated and remain eliminated for a specific period of time. To qualify for reclassification, the permit-required space must pose no actual or potential physical hazards and entry into the space can be undertaken without risk of encountering hazards.

If reclassification requires someone to initially enter the confined space to eliminate any hazards or determine if any exist, such entry must be performed in accordance with the requirements for a permit required space.

by the Confined Space Program Administrator.

## **Lockout / Tag out Procedures:**

Employee must follow before work

- 1. Inform all affected employees of equipment shutdown.
- 2. 3. Shut down equipment.
- Isolate or block hazardous energy.
- 4. Remove any potential (stored) energy sources.
- 5. 6.
- Lockout or tag out the energy sources.

  Verify the equipment is isolated from the hazardous energy and de-energized.
