

Boating Swim Test

Requirements

- Students must swim 25 yards in lightweight clothing and tread water for 5 minutes. During the final minute of treading water, students must don and secure a lifejacket.

Where do I complete the swim test?

- Go to the Bainbridge Island Aquatic Center or another swimming pool where there is a certified lifeguard and take the test. Make sure to call ahead to see if there is availability. Swim tests are not available at the Bainbridge Island Aquatic Center during open swim periods.
- Have the lifeguard / swim test administrator sign off on the form below.

Who is exempt from the swim test?

- Any current lifeguard or water safety instructor (attach a copy of your card).
- Anyone with a current PADI or similar diving certificate (attach a copy of your card).
- Anyone who has a [Swimming License](http://swim.benitek.net/) on file with the Bainbridge Island Aquatic Center. Visit <http://swim.benitek.net/> to see if you have one on file, print out the page showing they/you passed, highlight the name, and attach it to this completed form.

Will I need to take this test again once I pass?

No, as long as we have your completed test on file. We do recommend keeping a copy for your records.

 Class participant Boating Instructor Volunteer (check one)

Name: _____ Date: _____
(Print name)

Swim Test Administer: _____
(Print name)
