a. Purpose

1. To identify critical Lap Pool Facility Components related to user group needs.

- Facility Areas:

1. Lap Pool
2. Deck Area
3. Dryland
4. Atmosphere and Circulation

b. Discussion/Questions by Facility Area:

1. Lap Pool

1. What are your user group needs for a new Lap Pool?

a. Pool Space

- i. Pool length and depth
- ii. Lane size and count
- iii. Open water size
- iv. Special Features
 1. Swim viewing
 2. Bulkhead
 3. Access
 4. Other

b. Pool Use Needs

- i. Fitness swimming
- ii. Swim Club
- iii. Water Polo
- iv. Synchronized Swimming
- v. Diving

2. Deck Area

1. What are your user group needs related to Deck Area?

a. Deck

- i. Deck size
- ii. Deck storage
 1. Club
 2. Public

b. Seating

- i. Spectator
- ii. Athlete
- iii. Other

c. Diving

3. Dryland

1. What are your user group needs related to Dryland Areas
 - a. Training
 - i. Swim Club
 - ii. CrossFit
 - iii. Other
 - b. Locker
 - i. Club vs. Public
 - ii. Storage
 - iii. Visual control
 - c. Multi-Room/Wet-Room
 - i. Club
 - ii. Public

4. Atmosphere and Circulation

1. What are our user group needs for Pool Atmosphere and Circulation?
 - a. Club Event
 - b. Public Event
 - c. Separation of Lap pool / Recreation pool
 - d. Outdoor Space

4) Close

- a. What are your needs to operate during construction?
- b. Questions to leave with:
 1. What positive influences will a competition lap pool have on the BI Student Body?
 2. What positive influences will a competition lap pool have on the BI Community?
 3. What funding resources/approaches can your team/club contribute?
- c. Further Input, Contact:
