## MOUNTAIN BIKING

Come explore some of the best mountain biking Washington has to offer with us! Rides are geared towards group ability. Qualified instructors and trip leaders will work to expand riders' skill sets, maintain a focus on safety, and showcase a variety of great trails to mountain bike.

### FAQS

**General** — A detailed email will be sent out approximately a week before the start of each program, with information on where to meet, what to bring, weather forecast, medical waivers, emergency contacts, and more.

**Questions?** Contact Sully Mynatt — Mountain Biking Program Coordinator at [sullym@biparks.org](mailto:sullym@biparks.org) or Finn Mander — Mountain Biking Summer Camp Director at [finn@biparks.org](mailto:finn@biparks.org)

**Equipment** — Participants must have a working mountain bike that is of suitable size, has gears to be able to go up and down medium grades of trail, functional brakes, and a properly fitting biking helmet. Please do not show up with bikes that have skinny road tires, a one-gear single speed, or major mechanical issues. Staff reserve the right to not allow participation if a bike is deemed to be unfit, non-functional, or if staff have safety concerns.

**Bike Check** — Staff strongly recommends that your rider's bike be inspected and tuned up by a professional bike mechanic 1-2 weeks before their first program of the season. Afford several days to ensure your rider's bike will be ready for pick-up. On Bainbridge, both BI Cycle and Classic Cycle are great bike shops that can help.

**Equipment** — Participants are responsible for providing their own personal clothing and equipment, but our Outdoor Gearbank has a select number of District mountain bikes (26" tire) that are available to borrow for free. Please contact Sully Mynatt - Mountain Biking Program Coordinator at [sullym@biparks.org](mailto:sullym@biparks.org) or Finn Mander — Mountain Biking Summer Camp Director at [finn@biparks.org](mailto:finn@biparks.org) at least two weeks prior to needing a mountain bike in order to check availability and to allow for scheduling.

**Physical Fitness** — Participants need to be physically fit for each ride's unique challenges. Terrain and trails vary, please refer to the "Trail Difficulty Rating System." The District reserves the right to require a doctor's note to clear a participant for participation.

**Registration Deadlines** — Registration deadline is three days before program start date. This allows us to effectively communicate with participants about any needs we can help accommodate as well as ensure each trip is a good fit.

**Refunds** — For questions about refunds, please see page 103. If weather or road closures cancel a trip, a pro-rated credit will be refunded for the missed day.

## TRAIL DIFFICULTY RATING SYSTEM

Sections of the trail may be easier or more difficult than the criteria listed below. For questions regarding a specific program, contact the program staff.

○ **(Easiest)** — Small hills and generally flat, smooth/paved terrain, few to no avoidable obstacles such as rocks and roots. Suitable for newcomers to biking.

● **(Beginners)** — Rolling hills. Varied terrain including dirt and gravel. Avoidable obstacles such as rocks and roots, few to no unavoidable obstacles such as large roots. Suitable for beginner mountain bikers.

■ **(Intermediate)** — Steep hills. Challenging terrain that may include loose dirt, and gravel. Avoidable obstacles such as rocks and roots. Unavoidable obstacles that riders may need to walk over such as drops and large roots. Suitable for riders with previous mountain biking experience.

◆ **(Advanced)** — Technical, long, and steep hills. Challenging terrain that may include loose dirt, gravel, sand, and rock. Difficult, unavoidable obstacles such as rocks, drops, and large roots. Suitable for riders with lots of previous mountain biking experience.

## PROGRAM KEY

▲ **(Overnight)** — Program will take place over the course of multiple days. Participants will have full access to our Gearbank for almost any camping or biking equipment needed for the ride. Contact a program instructor for more information.
