

Battle Point Park

Key/Legend

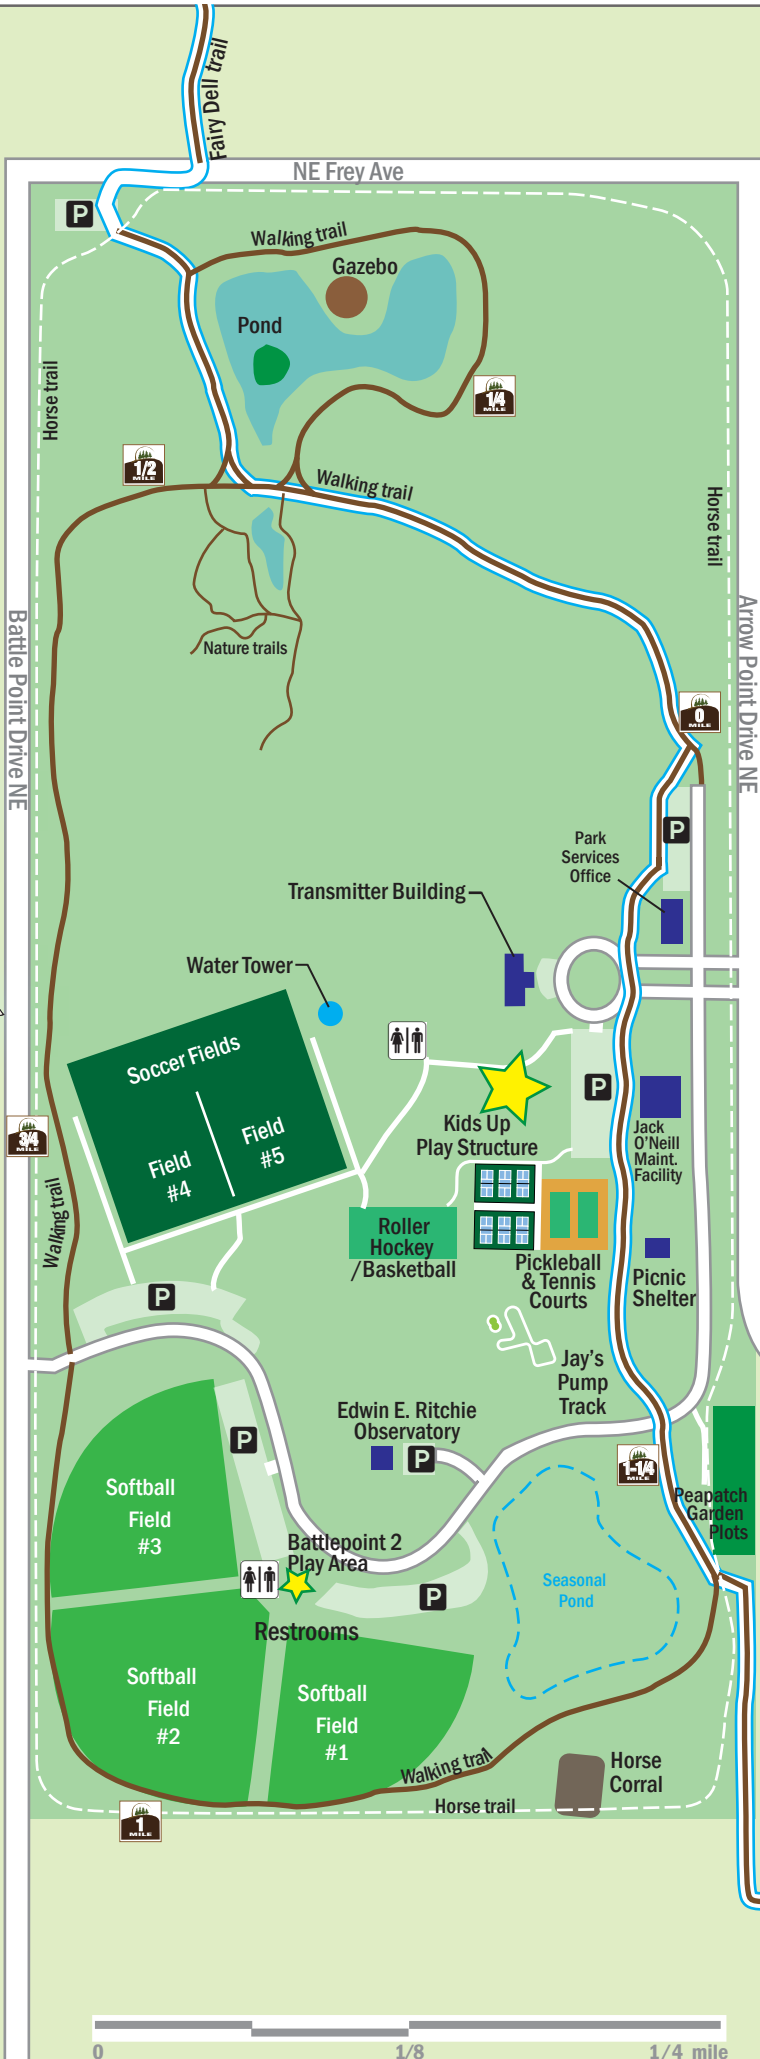

- Park Boundaries
- Roads
- Trails
- Cross Island Trail
- Trail Mileage Markers
- Parking
- Play Structure
- Restrooms

Battle Point Park is a former naval radio station and is largely open space. There are ponds, walking trails, soccer and softball fields, basketball, tennis, pickleball, and roller hockey courts, two children's play areas, a horse area and trail, and community garden plots.

The Cross Island long-distance trail crosses through the park. The Battlepoint Astronomical Society has developed an astronomy center in the Edwin E. Ritchie Observatory.
