

# Cody Ogren

I was born and raised on Bainbridge Island, and have worked at the Park District since I graduated high school in 2008. I currently work at the pool as a Senior Lifeguard and Swim Instructor.

I have a background in Special Education and have worked for the public schools on the island. I previously worked at a local nonprofit for adults with intellectual disabilities. My focus was in Fitness and Community Outings. I have continued the fitness aspect by providing respite hikes. I also provide in home care for some of these individuals.

In my free time, I love being outside, whether it's camping, hiking, or exploring new areas in the Pacific Northwest.
