

Eagledale Pottery Studio Surplus Item 2024

Crucible kiln surplus sale

This front loading gas-fire “Crucible” brand kiln was donated to the Park District pottery program from a private individual in 2018. It’s intended use was to be refit as a soda-firing kiln to enhance the Eagledale Program glaze finishing options. However, that use was deemed too toxic and damaging for the metal kiln yard roof and too expensive to install a proper hood, venting, and gas connection. The donated kiln is not connected and has never been used at Eagledale, nor has it ever been insured by the Bainbridge Island Metropolitan Park and Recreation District.

Kiln Description

- One front loaded gas-fire kiln to be sold “as is”
- “Crucible” brand, supported by Seattle Pottery
- 12 cubic feet (4”x3” interior space), 120 V, Cone 10, max. temp 2380
- Very good condition, with some exterior weathering due to outdoor storage
- Section of fitted roof vent pipe included

Approximate Market Value

12 cubic feet, front loading gas pottery kilns run \$21,810 (Laguna brand) to \$11,130 (Olympic brand). A fair price for a good condition kiln of this size is \$8,000.

Sale Process

This kiln will be sold first-come, first-served and include the vent pipe listed above. Kiln will be available for viewing by arrangement. Interested buyer will initiate purchase by emailing Program Manager Shannon Buxton at shannon@biparks.org to schedule viewing and payment. Submitting full payment in the form of a cashiers check is required to secure item. Successful purchaser must make arrangements to pick up/load/haul kiln from Bainbridge Island, Eagledale Pottery Studio within two weeks of purchase payment. If there are questions about the item or process, please contact Bryan Garoutte at bryang@biparks.org.
